IBBA-ABC Support Grant
Submission deadline: March 1, 2027

Aim
Inter-institutional, interdisciplinary iBBA-ABC Support Funding is intended to increase collaboration between iBBA and ABC researchers: the grant proposal must include one PI from iBBA and one from ABC (**inter-institutional**). The aim is to provide additional support for research between iBBA and ABC members from different disciplines and, preferably, from different faculties (ABC) and sections (iBBA).

Budget
All submissions must have a budget of **max. € 5,000**. This budget must be spent within the calendar year of the award; for the 2027 grant round, all financial procedures must be completed by 31 December 2027. Budget is available for max. 3 grants per year.

Who can apply?
PIs* are iBBA and ABC members with at least a 0.5 FTE appointment at the UvA/VU/AUMC.
**iBBA and ABC Board members are not allowed to submit as PIs.*

What can be applied for?
Budgeted costs can vary but may include e.g. materials, participant money, and RA salaries*.
**RAs will be appointed by the PI's home institution, following the institution's HR policies.*

Application Process
Applications must be submitted by **March 1, 2027** at 23:59.
The submissions will be evaluated by a committee consisting of iBBA and ABC Board members. We aim to inform applicants of the outcome of their application within three weeks from the date of submission.

Application Requirements
- Applications must be drawn up in the provided application form.
- Application forms must be uploaded as a PDF through the ABC website.
- Applications must demonstrate how the event will contribute to the main goals of increasing **inter-institutional and interdisciplinary collaboration**.
- Applicants may only submit one iBBA-ABC proposal per grant round.

Applications Assessment
The Support Grant Selection Committee will evaluate the applications on the basis of:
- The potential to increase inter-institutional and interdisciplinary collaboration (50%). Priority will be given to research proposals that connect researchers from ABC and iBBA who do **not** work in the same area.
- The quality and originality of the proposed research (50%).
